

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended). A multilayer, metallized ~~metallizable~~, white opaque, plastic label including at least an internal core layer and opposed outer skin layers thinner than said core layer, one of said outer skin layers being a non-voided layer having a an outer surface thereof oxidatively treated to receive a metal layer thereon, the opposed outer skin layer including at least 25% to about 50% by weight, based upon the weight of said opposed outer skin layer, of a void creating additive, ~~and~~ an aqueous cold glue adhesive of the type employed to adhere the label to a container on said opposed outer skin layer and a metal layer on the outer surface of said one of said outer skin layers.

2. (Cancelled)

3. (Previously Presented) The label of claim 1, wherein said void creating additive is calcium carbonate.

4 – 10 (Cancelled)

11. (Previously Presented) The label of claim 1, wherein said internal core layer is free of void creating additives.

12. (Currently Amended) The label of claim 1, wherein the outer skin layer including ~~that is treated to receive~~ a metal layer thereon has a thickness of approximately 20 gauge or less; said core layer has a thickness of approximately 200 gauge and said opposed outer skin layer has a

thickness of about 15-25 gauge.

13. (Cancelled)

14. (Previously Presented) The label of claim 1, including a biaxially oriented polyolefin film.

15 – 27 (Cancelled)

28. (Currently Amended) A white opaque plastic label including a first and second outer layer and a core layer between said outer layers, said outer layers being thinner than said core layer, said first outer layer at least one outer layer having opposed surfaces, said at least one outer layer including at least 25% to about 50% by weight, based on the weight of said first outer layer, of a void creating additive therein and an aqueous cold glue adhesive on an outer surface of said first outer layer one of said opposed surfaces for securing said label to a container, said second outer layer being free of a void creating additive and including a metal layer on an outer, exposed surface thereof.

29 – 30 (Cancelled)

31. (Currently Amended) The label of claim ~~29~~ 28, wherein said core layer is adhered to said ~~at least one outer layer and said second outer layer~~ first and second outer layers.

Application No. 09/778,325
Amendment Dated 09/12/2005
Reply to Office Action of 6/13/2005

32. (Currently Amended) The label of claim ~~29~~ 28, wherein said void creating additive is calcium carbonate.

33. (Currently Amended) The label of claim ~~30~~ 28, wherein said core layer is free of a void-creating additive.
